

FLEX FOSTER PARENT

The foster care program plays a crucial role in enabling the HBSPCA to assist a greater number of animals each year. It serves as a vital piece in providing a secure and nurturing environment for animals that require time to heal, develop, and await their forever families for adoption. Our flex foster role is designed to provide added support for our current fosters. The flex foster parent would support another foster at times they have to be away. This may be a long weekend, a short trip or an emergency.

- To become a flex foster parent, simply complete click our application link. Our team will connect with you to share more information on the foster program.

- **Time commitment:** This is not a fixed schedule but you would be notified when a flex foster is needed. All supplies would be provided.

- This provides short term flexible fostering when foster parents are required to be away.

- You would be fully responsible for the animals care during their stay with you.

Perfect for people who are not ready to commit to long term fostering.
